

M 80 FORCED ACTION MIXER (80 L)

The Baron M80 is powerful and efficient. The M80 achieves optimum mixing quality for a variety of compounds from basic cement mortar to specialist screeds and traditional lime based materials. User friendly design and perfect balance ensures safe and convenient handling. With a surplus of power and a virtually silent motor the Baron M80 is in a class of its own.

- Rollers assist in easy and safe loading onto transportation
- Ergonomic design
- Stable and user-friendly interlocked lid

- Electrical parts securely housed
- Manual mains relay with under voltage protection
- Motor protected against debris and water

- Quality, durability and efficiency
- Maintenance free gearbox and motor
- Easy and self-explanatory handling and use
- Health and safety features
- Removable mixing head for ease of cleaning
- Durable powder paint finish
- Good ergonomics

- Robust bucket support – foot operated
- Solid and cross-strengthened frame construction
- Four-layer pneumatic tyres for manoeuvrability

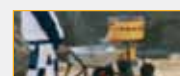

- Emergency cut-out switch stops the engine when the lid is opened
- Location bolt secures the lid in the open and closed position
- Easy to clean and maintain
