CES Hire Ltd. supplying the trade since 1983

DIESEL HYDRAULIC RENDERING MACHINE WITH WORM-GEAR PUMP FOR COMMON & SPECIAL MORTARS

- Guarantees a wide range of uses.
- Washing and routine maintenance operations are extremely easy & quick.
- It allows the operator to work easily and in safety.

State-of-the-art plastering machine for mixing, pumping, spraying and injecting ready-mixed and traditional mortars, insulations, special concretes and self-levelling screeds.

TECHNICAL DATA:

TURBOSOL Pro

Motor	Lombardini diesel
Hydraulic Output	0-55 litres/min
Max pump pressure	40 bar
Delivery distance	80-100m
Delivery height	50-60m
Capacity	180 litres
Width	139 cm
Length	296cm
Height	125 cm
Weight	750 kg

MACHINE	Common & special mortars	Ready-mixed mortars	Screeds	Concrete & micro-concrete	Plaster removal
