V2

CES Hire Ltd. supplying the trade since 1983

Utiform V2 Rendering Machine

Motor	Diesel	Electrical
Conveying output	0 to 60 l/min *	0 to 60 l/min.*
Pumping distance	80-100 m *	80-1000 m *
Pumping height	40-50 m *	40-50 m *
Max. grain size	2L6 - 6 mm	2L6 - 6 mm
Size LxWxH (mm)	3300 x 1150 x 1200	3300 x 1150 x 1200
Weight	750 Kg	750 Kg
Loading height	1150 mm	1150 mm

* depends on the consistency, quality and composition of the material, diameter and length of delivery hose and pumping the material height.

- Max. grain size 6mm.
- Equipped with stator and rotor 2L6 with an output up to 3.6 m³/h.
- Can be used for small quantities of self levelling floor material.
- Excellent towing performance due to low center of gravity.

Standard Equipment:

- Towable
- Air compressor 375 l/6 bar
- Stator + Rotor
- Electric control panel
- Tools & cleaning kit
- Warranty certificate
- CE certificate
- Instruction manual & partsbook

- Rendering machine for one coat render, traditional mortar and all sorts of premixed mortar.
- Ideal for cement based renders, one coat renders, repair mortars and traditional mortars.
- Forward - Backward drive of the pump for easy cleaning and avoid material blockages.
- Large radiator with cooling unit to avoid heating of the motor and hydraulics.
